

FIELD TECHNICIAN

Terraprobe Inc. is seeking individuals for a co-op position as a Field Technician in our Stoney Creek office. Work carried out by the firm includes Geotechnical Investigations and Materials Inspection & Testing (field and laboratory).

Qualifications:

Candidate in a Civil Engineering Technologist / Technician Program or equivalent. Previous field experience and a working knowledge of AutoCAD and word processing software (WordPerfect, Microsoft Works, and Microsoft Excel) will be considered assets.

Job Description:

Perform a broad range of tasks to support the completion of geotechnical, materials testing & inspection, and environmental projects undertaken by the firm. This may include the following:

Geotechnical:

Soil sampling by a variety of techniques, including supervision of borehole and test pit programs

Materials Testing & Inspection

Field compaction monitoring & testing, concrete and asphalt testing (field & lab), laboratory soils testing (soil moisture content, sieve/hydrometer analyses, Proctor density)

This is primarily a field position. The successful candidate must have full time access to a vehicle. Terraprobe Inc. compensates employees for work related mileage at a rate consistent with the industry. The successful candidate will be provided with training & supervision. The work involves lifting and carrying loads that may exceed 40 lbs.

Terraprobe Inc. is a geo-environmental consulting firm that was established in 1977. The head office is located in Brampton, Ontario. Branch offices include Barrie, Sudbury, and Hamilton (Stoney Creek).
